Harley's Story

Harley is a rescued Yorkshire terrier learning the meaning of a forever family and unconditional love.

How do you talk to your child about their newly diagnosed illness? How do you tell your child their pet has an illness like diabetes? What can you do to explain that they will be loved unconditionally regardless of health issues? The answer is "Harley's Story".

Join Harley a rescued, diabetic dog on his adventures. Including photographs, Harley's story seeks to teach elementary children the value of being different and unconditional love.

"Harley's Story is such a sweet book. I would recommend it for any child that has a special needs pet or their own special needs. I love how the author explained Harley's feelings and fear of the things happening to him. Beautifully written with gorgeous photography. ~M.K. Clinton"
